Noughts ^{and} Crosses by Malorie Blackman is about a world run by the Black Race who are all known as Crosses. The white race who are all known as noughts are treated very unfairly and are given no opportunity to do anything good in their life. So when Callum, a Nought, and Sephy, a Cross, fall in love how will it be possible for them to live happily together as the two race are never ment to get along.

the reader would

An important event in the text is when Callum joins the Liberation militia which is a group of Noughts who try to bring equality between noughts and crosses. ^{add more details, what led him to join? how did he join?} This event had a positive effect on Callum as this was the first time Callum felt like he was part of something good. an example of this is when Callum ^{realised} he will never have a chance to do something good in his life as he is a Nought and as the old saying goes "if you're Black that where it's at, if your brown stick around, if you're white say good night". Callum ^{had} even considered that there was no worth living and he should say good night as his own sister Lynette gave up

and killed herself but Callum would not give up that easy. So of course when opportunity came to join the L.M. he said yes. Callum said yes as this was the only way Callum could help to change how things are now and help to bring equality between noughts and crosses.

In Conclusion [I have told you] about an important [which was Callum joining the L.M.]. [I have also told you] how this event had a positive effect on Callum.

Eg. Conclusion

In conclusion, Callum's joining the Liberation Militia was the end result of his persistent attempts to believe that things could be different. His joining signifies that he is accepting the racist world that he lives in and that he sees violence as the only way out. It affects him positively because he begins to feel empowered and develops a sense of belonging.
